

LUMEN  
PHARMA

Vision for life

## About us

Lumen is an auspicious pharmaceutical company that recently started its journey on 18 March 2022 city of lights Karachi, Pakistan. A few friend sat together to knit a dream into reality, collaboratively merging decades of extensive experience together to form a pharmaceutical company where the consumer are made the foremost priority. Lumen Pharma has resolved to prove beneficial to people by bringing them the gift of health. Lumen Pharmaceuticals has teamed up with Elko Organization & Nexus Pharma to manufacture their products after reassuring their brand and facility qualification as one of the finest in Pakistan.

## Mission Statement

To excel within the pharmaceutical industry through quality products and ethical dealings.

## Vision

We at Lumen Pharma pride ourselves in striving for continuous growth and develop, produce and distribute the finest quality of products for patients', consumers' and healthcare partners.

### **Our vision is:**

To become a reputable, prominent and affordable pharmaceutical company in Pakistan.

Maintaining the highest professional and ethical standard to aid and strengthen customer relationships and satisfaction.

To bring better health to people effectively through leading innovative medicines.

## Production

Ophthalmic products are manufactured in state of the art production plant under sterile conditions in accordance with the stringent requirement of the cGMP guidelines. Hygiene rules are rigorously exercised within the production areas, which trained personnel. Various criteria of sanitation are mentioned and reordered continuously, while problems are immediately reported and eliminated. This meticulous care ensures ophthalmic products of unsurpassed quality and safety.

## Manufacturer

**Elko Organization** is renowned pharmaceutical company , which is manufacturing ophthalmic products from last three decades. Having one of best ophthalmic section in country.

**Nexus pharmaceuticals** is certified leading exporter of drugs and medicines manufacturing of national and multinational companies; including Asian, middle-eastern, African and American countries.

## **Future Plans**

Our future plans include additions of ophthalmic surgical and biotechnological products as well as a range of consumer health items. Lumen has planned to fulfill the aim of keeping with the growing trend of pharmaceuticals.

## **Quality Control**

Modern analytical equipment in quality control laboratories ensures cGMP standard quality control. All ophthalmic products undergo chemicals analysis and are tested and retested microbiology labs for sterility by high qualified, professional staff. Close supervision and recording of manufacturing process is undertaken at each stage of production which assures uniform quality and utmost drug safety.

## **Marketing & Sales**

Lumen Pharma comprises of a team of well trained and experienced sales professionals. The primary objective of the team is to provide up-to-date ophthalmic product information to medical professionals through an ethical promotional network. The department is run by a team of highly respected professionals in ophthalmology, retaining experience of nearly 2 decades in marketing.
